

**Design Services for US-41 Reconstruction from East of MacInnes Dr to Isle Royal St.-  
Houghton QA1**

**Requisition #2752**

Q: Can you shed any insight on what MDOT is thinking for the need for the temporary traffic signal?

A: We are anticipating that the existing signal at US-41 (Townsend Dr) and MacInnes Drive will require modifications to the timing permit, as well as physical adjustment to signal heads to accommodate construction staging.
